

### Oxygenating Facial

The oxygen facial helps to pump up and speed tissue respiration and stimulate the skin's metabolism to lose toxins and free radicals. You can expect a cleaner, tighter feel to the skin and it will have a nice glow.

### Signature Facial

A popular, personalized deep pore-cleansing facial, featuring a scientific and gradual protocol. This treatment utilizes an anti-inflammatory plant extract that will leave your skin feeling rebalanced and rejuvenated. This isn't just a facial—it's an experience.

### European Facial

A luxurious treatment to nourish, smooth and replenish. It includes cleansing, toning, moisturizing and peeling, with a facial massage and an intensive mask tailored to your skin type.

### Chemical Peels

Light gentle peels, like glycolic, green peel, salicylic and medium grade peels are used to dissolve the outermost layer of dead skin cells revealing the healthier, smoother skin beneath. Experience our relaxing and gentle peels without the discomfort, redness, recovery time of the past. A patch test is done 24 hours prior. Expect some down time within a week.

### Whitening Premiere Facial

This whitening treatment has been proven to be highly effective in treating uneven skin tones and hyperpigmented skin conditions.

The treatment combines whitening and oxygenating agents to lighten and fade hyperpigmentation caused by exposure to the sun, use of oral or topical medications, pregnancy, or previous acne problems.

### LED Facial

This treatment works from the inside.. and out. The effects of light energy, micro-circled currents and high frequency polarized currents produce skin rejuvenation that is safe, comfortable and effective.

While the red stimulates collagen growth, the lifting electrodes stimulate and re-educate the muscle tissue, producing visible lifting and contouring results. Depending on age skin tone, optimal benefits are achieved in six to ten treatments.
